FAST FORGING FORWARD.

Idaho is one of the best watered states in America. People are moving there because hot winds and destructive storms are unknown and because its matchless climate generates physical and mental vigor and guarantees good health. Idaho has rapidly grown in popularity during the past five years and settlers in its irrigated valleys have met with more than ordinary success. This fact has induced a large influx of eastern capital in the state with the result that its growth has been rapid. If you have in mind a change for the general improvement of your condition in life, or if you are seeking a climate beneficial to health, Idaho will meet these requirements. The easiest—in fact the only direct route to Idaho points is via the Union Pacific. This road runs two trains daily from Omaha and two trains daily from Chicago and Kansas City to all points in Idaho, Montana and the great Northwest. For full particulars and descriptive information inquire of City Ticket Office, 1324 Farnam St. Phone 310.
